Bogor, Indonesia | taufkh@gmail.com | [linkedin.com/in/taufkhidayat](https://www.linkedin.com/in/taufkhidayat)

Portfolio: taufkh.github.io/cv/

Professional Summary

Odoo Functional Consultant and Business Analyst with over five years of ERP experience across retail, manufacturing, distribution, and services. Combines requirements analysis with project coordination, functional documentation, developer collaboration, and user testing. Recent work includes Odoo projects for Fischerbell and iConnexion in Singapore, and a custom Work Breakdown Structure module for HKI in Indonesia. Odoo v16 certified.

Core Skills

Business analysis: Requirements gathering, process mapping, gap analysis, functional specifications

ERP delivery: Scope and priority coordination, progress tracking, UAT/SIT, training, go-live preparation

Odoo: Sales, Inventory, Manufacturing, CRM, POS, Odoo Studio

Tools: Microsoft Excel, Microsoft Project, Notion

Professional Experience

Odoo Functional Consultant - Project-based

PASINDO, Indonesia | Jun 2026 - Sep 2026

Client: HKI | Custom Work Breakdown Structure (WBS) module

- Handled functional requirements for a fully custom Odoo WBS module covering detailed project data entry and workflows based on HKI's business processes.
- Worked directly with users to clarify their needs and documented the required fields, system behaviour, and workflows.
- Coordinated with developers to explain requirements, resolve functional questions, and communicate changes agreed with users.

Odoo Business Analyst

McCoy PTE Ltd, Singapore | May 2025 - Jun 2026

Projects: Fischerbell (Retail) and iConnexion

- Combined business analysis and project management responsibilities, from requirements gathering through testing and go-live preparation.
- Worked with users to map business processes and prepared functional requirements, process flows, and testing documentation.
- Coordinated stakeholders and developers on scope, priorities, delivery progress, and outstanding issues; reviewed features against agreed requirements.
- Coordinated UAT/SIT, consolidated user feedback, and followed up on issue resolution and go-live readiness.

Business Analyst

M+ Software | Oct 2024 - Apr 2025

- Analysed business processes and gathered stakeholder requirements to identify workflow improvements.
- Translated business needs into functional specifications and used gap analysis to recommend system changes.

Middle Odoo Functional Consultant

PT Arkana Solusi Digital | Jan 2023 - Oct 2024

- Led Odoo ERP implementations and worked with cross-functional teams to adapt the system to client requirements.
- Conducted UAT and SIT to check business workflows and support implementation readiness.

Project Manager (Odoo ERP Consultant)

PT Arkana Solusi Digital | Mar 2021 - Dec 2022

- Managed Odoo ERP implementations from requirements gathering through deployment, coordinating delivery schedules and client needs.
- Worked on payroll process improvements for Medika Plaza Indonesia.
- Prepared user manuals and delivered end-user training to support system adoption.

Architectural Feasibility Expert

PT Buana Desain Arsiplano | Jul 2020 - Nov 2020

- Assessed building project feasibility against architectural and regulatory requirements, working with architects, engineers, and government officials to address project constraints.

Education

Master in Environmental Psychology

University of Surrey | 2014 - 2015

Bachelor of Architecture

Universitas Indonesia | 2009 - 2013

Certification

Odoo Functional Consultant Certification v16
